What do you like most about the instructor's teaching?

(Instructor Text/Memo)

Kevin, Dao Instructor

- He does not judge when we do not know a concept. He provides feedback to the class for every quiz/exam. He does reviews for exams. Lastly, it feels like he actually cares about us.
- Began to explain key concepts for better understanding
- he teaches the material better than the professor
- I like that Kevin recap the lecture lesson before we start on the discussion worksheet and emails us the common mistakes and misconceptions from our quizzes. I also appreciate that we take the quiz at the end of class instead of right away at 8:50.
- He presents it in a way that makes it easy for me to understand for the most part.
- I like that Kevin uses half of discussion to give us a mini-lecture on the topic we learned and go over an example problem to make sure we understand it. I also appreciate his encouragement during discussion, and focused attempt to answer everyone's questions.

How could the instructor improve his/her teaching?

(Instructor Text/Memo)

Kevin, Dao Instructor

- Being more effective in helping answer problems. Making sure concept is understood by all students
- I think he could be more direct in answering questions because a lot of times he asks us to continue working on questions in our groups after giving us some feedback but we pretty much cannot get further without his support and oftentimes when we ask the questions its because we already have gotten to the point where nobody can reason through any more of the example so redirecting us to keep working as a group on it isn't very effective.
- no change necessary
- I think there are essentially no improvements to be made.

more working
