What do you like most about the instructor's teaching?

(Instructor Text/Memo)

Kevin, Dao Instructor

- Kevin always made sure to get to each group within the discussion section, and he always gave great examples on the board and could answer all and any questions with ease.
- Very clear when explaining topics and examples; he pays attention to all students and details.
- He's very engaged in class and really talk to students about their concerns. I basically learn this class from discussion.
- My favorite part about the TA's teaching was that we would go over problems at the beginning of class before doing the worksheet and that we would do our weekly quizzes at the end of class.
- He has a cheerful personality and usually responds so well. His way of explaining makes problems simple and easy.
- He knows everything and can explain anything you need him to, but he doesn't necessarily give you the answer, he guides you to find the answer for yourself.
- I like how he starts class with an example and allows for better understanding of the topic before sending us off to do the worksheet.

How could the instructor improve his/her teaching?

(Instructor Text/Memo)

Kevin, Dao Instructor

- I do not think he needs to change anything. I really enjoy learning from Kevin.
- The instructor could improve his teaching by not using the side of the blackboard that the right side of the classroom can not see.
- For me, there are a few too many examples on the board in the beginning of class, but I understand that other students need those examples.
