14

What do you like most about the instructor's teaching?

(Instructor Text/Memo)

Kevin, Dao Instructor

- Very helpful, really understanding. Was ready to explain concepts that were confusing in office hours.
- He shows a lot of examples of how to do math problems on the blackboard which I really appreciated because I believe I learn best when lots of examples are used to convey concepts.
- Hes nice
- Kevin knows the content very well and walks us through examples on the board and explains concepts we find difficult. If we need more help understanding material he explains more during work time.
- I really like that he starts with a lecture style and then gives us a chance to try problems

How could the instructor improve his/her teaching?

(Instructor Text/Memo)

Kevin, Dao Instructor

- Going through all the steps on the board, and not assuming that all the student's understand what happened. I think sometimes he may be a little too fast when solving the problem, and assumes everyone understands all of the steps - sometimes it helps to slow down on the hard/new problems/topics.
- Sometimes he would explain a concept in a slightly different manner than how we learned it in the lecture and it would lead to some confusion. Maybe teach slowly when approaching a scenario differently.
- Hes nice
- Most of the time his explanations are very clear but other times he makes concepts seem more confusing.
