How could the instructor improve his/her teaching?

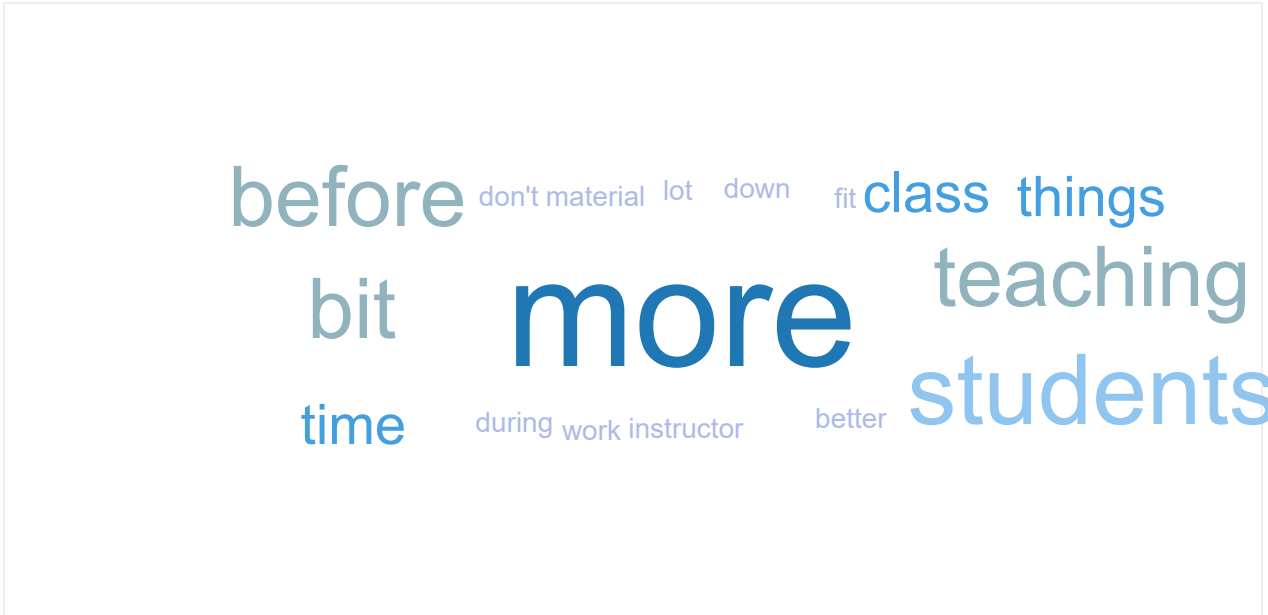

(Instructor Text/Memo)

Kevin, Dao Instructor

- N/A
- Be more louder
- Slow down at times and break things down but I understand he tries to fit a lot of material during limited time.
- everything
- Everything this instructor does is a good way of teaching.
- I don't know.
- Nothing
- Be more cautious of your response when students answer a question incorrectly.
- More of a structured class agenda, sometimes we bounced around and each topic was just thrown together into a single lesson
- He was great but his office hours could've been better since I had class during them.
- The instructor can improve his teaching by having a review session before exams.
-
- i'm not sure
- Maybe just give students more time to work on problems on their own
- He could improve his teaching by going over things when we ask and letting us know what will be on the tests.
- by going through the material in a better and more clear way.
- n/a
- I think he could go a tiny bit slower, he takes his time to go through things but the actual teaching bit goes a bit fast
- Not go as fast
- He's perfect
- n/a
- Sometimes I dont really like that we just are given a free for all the last 30 mins to work on the sheet. Sometimes I feel like the stuff on the worksheets could have used more explanation before we are told to try it out.
- NA
- More review before exams would be nice

- I think displaying different methods of solving a problem can help students see which method would fit them best.
- nothing
- more time to study before the exam
- it's cool like that
- everything was fine
- Possibly being a bit more strict on participation, I feel like the students don't take him seriously a lot of the time.
- I think if he were to move at a faster pace students would be more likely to engage in the class in order to keep up.
